

**Office of Environmental Health Hazard Assessment**  
**Staff Presentations for**  
**Carcinogen Identification Committee Meeting**  
**Held on August 12, 2005**

A meeting of the Carcinogen Identification Committee (CIC) was held on August 12, 2005, at the California Environmental Protection Agency Headquarters Building in Sacramento, California. Below are the presentations made by staff of California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA). The segments of the agenda covered by this material include the "Consideration of a Chemical as Known to the State to Cause Cancer."

The CIC determined that 1,2,4-trichlorobenzene had not been clearly shown to cause cancer; and therefore declined to add it to the Proposition 65 chemical list.

The complete meeting transcript is available from the court reporter, Ms. Phyllis Mank at [Phylanna@aol.com](mailto:Phylanna@aol.com).

**Meeting Agenda**

**Consideration of a Chemical as Known to the State to Cause Cancer**

- 1,2,4-Trichlorobenzene [PowerPoint presentation]  
John Faust, Ph.D., OEHHA
